#### **SUMMARY**

Frontend Developer specialized in creating user-facing features using React.js. Creator and maintainer of serveral JavaScript libraries and open-source contributor.

- Created free React <u>landing page template</u>, designed for developers and startups, who want to develop a
  fast, multi-lingual and responsive professional landing page for their business or project.
- Created lightweight <u>JavaScript library</u>, used to generate an equidistant array of color gradients between start and finish colors, as well as, the required numer of midpoints.

## **EXPERIENCE**

### Frontend Developer @ Falconix

March 2020 - Present (10 months)

- Built web applications using React, Gatsby, Redux, styled-components and Material-UI.
- Made isolated UI components using Storybook.
- Used WebSocket API to open a two-way interactive communication session between the user's browser and a server.
- Added internalization using i18next framework.
- Made various UI improvements and bug fixes of the main public facing web app.

## Freelance React.js Developer @ Upwork

April 2020 - Present (9 months)

- Built highly responsive and scalable websites using React, TypeScript, styled-components and Ant Design.
- Wrote frontend of the main public facing website for <u>Daivec</u> Al consulting company. Project has over 8 pages, multiple modals, blog, contact form, google map and portfolio study.
- Developed a multi-lingual landing page, with reusable UI components for Biolearning.
- Worked directly with the clients to ensure they knew everything about maintaining the project upon completion. Delivered all of the data from the JSON files, if they didn't have an API.

#### Frontend Developer @ Circle

October 2019 - February 2019 (5 months)

- Led building of Frontend for <u>MES's</u> project <u>Schoolprojects</u> online grants platform. UI was built on **React** Hooks, styled-components and **Antd Design**, while keeping components small and function-specific.
- Developed interactive and responsive <u>Google Map</u> components on several projects. Including, but not limited to, <u>Geolocation</u>, <u>Marker Clustering</u> and <u>Data Visualization</u>.
- Did extensive clean up of CSS and introduced modular approach of writing CSS.
- Made various UI components and bug fixes on existing websites.

## IT Recruiter @ Alpha Technologies Inc.

April 2018 - September 2019 (1 year 6 months)

- Understanding the job profile and identifying the ideal candidate profiles for the job.
- Coordinating with IT team leaders to forecast department goals and hiring needs.
- Conducting interviews and filtering candidates for open positions.
- Sourcing and attracting candidates by using databases.
